DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on November 20, 2003 is being considered by the examiner.

Allowable Subject Matter

- 3. Claims 1-13 are allowed.
- 4. The following is an examiner's statement of reasons for allowance: The prior art does not teach or fairly disclose a ferroelectric memory comprising a ROM area and a RAM area both including memory cells each having a ferroelectric capacitor, wherein the ROM area comprises: at least one real memory cell for storing data to be written in manufacturing process of the ferroelectric memory; a dummy memory cell; a reference memory cell having a ferroelectric capacitor therein whose residual dielectric polarization value is set to a predetermined value in the manufacturing process; a first bit line connected to the real memory cell and the dummy memory cell, and transferring therethrough an electric charge corresponding to a residual dielectric polarization value of the ferroelectric capacitor which is included in a selected one of the real memory cell and dummy memory cell; a second bit line connected to the reference memory cell, and transferring therethrough an electric charge corresponding to a residual dielectric polarization value of the ferroelectric capacitor which is included in the reference memory cell being selected in synchronization with a selection of the real memory cell or the dummy memory cell; and a sense amplifier connected to the first and second bit lines, for

due to the transferred electric charges..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gene N Auduong whose telephone number is (571) 272-1773.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Nelms can be reached on (571) 272-1787. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
